

Heavy Duty Wheel Bearing Grease

(October 2021 edition)

AMALIE Heavy Duty WHEEL BEARING Grease is a smooth lithium grease formulated to provide excellent lubrication properties for open, heavy-duty bearings. **AMALIE Heavy Duty Wheel Bearing Grease** imparts excellent resistance to displacement under high loads or centrifugal action. Not recommended for disc brakes. Meets NLGI GA, and LA.

Typical Physical and Chemical Properties

Color	Yellow-Green
Texture	Smooth-Buttery
NLGI Grade	3.5 - 4
Thickener Type	Lithium
Solid Lubricant	None
Dropping Point °C /°F	185/365
Timken OK Load Lbs. D-2509	45
Rust Corrosion Test, D-1743	Pass
Worked 60 Penetration, D-217	200
Characteristics Oil plus Additives, Viscosities D-445	
@ 100°C, cSt.	11
@ 100°C, cSt.	143
Viscosity Index	39

Typical values are listed. Variations not affecting the performance of this grease may occur during production.

Additional Information

Please use proper handling and care that you would use with any lubricating grease. Contact your Sales Representative for SDS.
