PRO ELITE

PRO ELITE RACING OIL

AMALIE Pro Elite Racing Oil employs a unique combination of synthetic base stocks and a proprietary mixture of organic and inorganic friction modifiers designed to increase horsepower without sacrificing protection. **AMALIE Pro Elite Racing Oil** resists the effects of cylinder “wash-down” and oil thinning due to its high inherent film strength and shear stable viscosity. A proprietary combination of Molybdenum, ZDDP, and organic as well as inorganic chemistry reduce friction under high load-high temperature conditions while providing top-class protection to all moving parts.

AMALIE Pro Elite Racing Oil is designed specifically for multi-platform racing applications and is compatible with engines fueled by alcohol, nitromethane, diesel, and leaded or unleaded gasoline of all octane ranges including those boosted by nitrous oxide. It is designed to flow quickly at engine start-up to protect all moving parts and to resist thermal breakdown at increased temperatures.

Benefits:

- Increased Horsepower
- Increased shear stability at high temperature and high load
- Increased Wear Protection
- Increased Resistance to Oxidative Breakdown
- Increased Protection for Flat Tappet Cams

TRACK USE ONLY • NOT STREET LEGAL

MADE IN U.S.A.
