

Form Oil 70

(September 2021 edition)

Description

AMALIE Form oil 70 is designed to function as a concrete form release oil. It is formulated from lightly colored mineral base stocks to deter discoloration. It may be used with either wood or metal forms.

AMALIE Form Oil 70 may be applied by either brushing or spraying.

Benefits

- No Discoloration
- Excellent Release Properties
- Smooth Finish

Applications

For use on with metal or wood concrete forms to aid in the proper release of the product.

Typical Physical and Chemical Properties

Viscosity Grade.....	ISO 15
Kinematic Viscosity @100°C, cSt.....	3.4
Kinematic Viscosity @40°C, cSt.....	15.0
Viscosity Index.....	100
Flash Point, °C (°F)	180 (356)
Pour Point, °C (°F)	-27 (-16.6)
Density, S.G.....	0.855

Typical values are listed. Variations not affecting the performance of this fluid may occur during production; however, these variations will not fall outside of set specification parameters.

Health and Safety

Safety Data Sheets (SDS) are available online at AMALIE.com or from your AMALIE Representative.
